

SMART DOOR

TODAY'S WAY OF ENTERING YOUR HOME

WELCOME TO A NEW WORLD!

SMART

STYLISH

CONVENIENT

RB-DOORS

SMART DOOR

NEW AND EXCLUSIVE TO RB-DOORS!

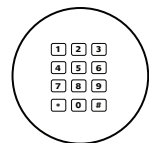

A smart mechanism concealed within the body of the door that turns every door in RB's Entrance Door Collection into a SMART DOOR.

Exclusive to RB-Doors, patent-protected Smart Doors developed and manufactured in Israel, offering a variety of control options for the entrance door.

With the SMART mechanism concealed within the door during production, the style and design of the door remain flawless and picture-perfect.

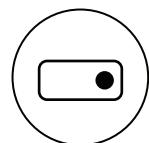

APP Control

Keypad

RB-DOORS

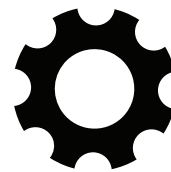

SMART DOOR

A SMART DOOR COMPLETE WITH A SMART LOCK

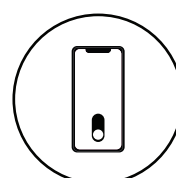

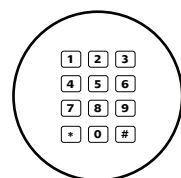

Built-in Smart Lock Embedded within the Door

The SMART system is a concealed system embedded within the door, and beyond the minimalistic and elegant interior operating unit, there is no disruption to the design.

A Reliable, Convenient and Accessible System

The system has been tested for more than 100 thousand open-and-close cycles and found to be highly reliable. Care for the "brain" of the system is easy and simple.

A Variety of Control Options

Opening of the lock through a designated app, fingerprint, keypad, smart-home connection, and, coming soon, face recognition.

SMART DOOR

SMART AND STYLISH DOOR

RB-Doors believes in integrating advanced technology and meticulous design, for this reason the SMART System is a concealed system embedded within the door, **and beyond the minimalistic and elegant interior operating unit, there is no disruption to the design.**
